Copy that, and no worries (or yelling). My e-mail message fist-bumped yours in cyberspace.

SORRY, I JUST MADE THAT SWITCHCHAROO and sent to Ed. Cc you. I also changed the date from 11/14 to yesterday.
For Version Control, keep mine as the most current please.
Same with the state briefing. I dropped another sentence or 2 from ND. (you can yell at me later ;))
and I am about to send out to Dan et al as a draft for tomorrow.

Got it.

One question: don't we want to provide our fatal flaw assessment before they hand off proposed finals to the Govs? This has us doing it right after not before.

You bet. Please see attached a revised version that captures your feedback (through Mike) and y/our other, earlier edits. Pat has kindly offered to take the ball from here, so please send any final edits to her for collating/revision.

Got one more loose end to tie up on the SecInt briefing and will send same shortly. Thanks.

Hi,

Please see attached the subject doc, revised to include UT's input. I re-sent the tasking and template to WA and R1 be: I saw some traffic that indicated they intended to re-submit the related but informal feedback we solicited last week. Please let me know if you have edits on the existing content, which I'll make while we wait on the last template. Thanks.

Matt
