Thanks, Drue,

I didn't even notice Lief's email. I have added the APLIC transmission line BMPs to the agenda as well, and Mark Sattelberg just informed me that we should not be anticipating a new version, so I will work with Lief on commenting on that.

Julie,

Google is defaulting to Lief's BLM address - I think it does it until you've emailed him more at fws than blm. If we can also add the draft APLIC Transmission Line BMPs I'd appreciate it. I'll give you a shout.
