Hi Folks,

I am making metadata for the aquaculture gis files (eelgrass, parcel recreations, etc..) and need your opinion on wording mostly about data use and distribution.

#1 Should the aquaculture GIS files be for

- A. USFWS eyes only
- B. USFWS and partners only
- C. Can be distributed
- D. Can not be distributed
- E. Open to the public, no restrictions

#2 Is it okay to summarize the 2016 eelgrass survey extents as:

"In 2016, only the parcel leased by Jamestown S'Klallam Tribe and the immediately adjacent areas were sampled for Eelgrass."

No rush on this, thanks for your help,
Julie
