I'm not even part of that discussion now. We'll see what happens

... and it is still not sent. I told Kevin at this point, we should not ask you to be involved with this discussion - you've done your part.. You were instructed to pare the list down and if changes to this letter are required yet again, you should not have to deal with it. I'll call you this afternoon and fill you in.

Letter to Corps is on my desk. Thanks for revisions to date.

My query for discussion early afternoon: We now attach a list of citations, for Corps consideration. When we sent citations on letter #2, the tribe hired a reviewer and wrote to us challenging some reference material (old; irrelevant, etc).

What did FWS do with our citations, in light of that feedback? Is our list altered? Unaltered? Might need the Refuge on the phone to hear from them (unless you already addressed this at RO level).

Thanks. 30 minutes max I think.

Thanks.
