---

Jennifer and Lorenz,

I realize the summer is a busy time and is flying by, but it has been nearly a month since we finished the second half of the eelgrass survey in Dungeness. It would be greatly appreciated to have the results before the end of the week.

Also, a couple of questions: What is the status regarding the cultural survey? Any word on the federal lead for the project?

Again it was a pleasure working with you both, I look forward to future days on the tide with you.

Ralph
