You're very welcome. The secret to a good finding aid in any archive is to provide enough information without doing the research for the researcher. Keep it simple.

**Subject:** Thank you

Just used your oyster file finding aid for the millionth time and wanted to thank you again for putting it together. Maybe next year we can get together and clean up the aquaculture e-files. It's all there...somewhere. An outside perspective could probably help me figure out a good organizational scheme.
