Looks fine. I think it gets us into the back and forth, point by point rebuttal though that we don't want to get into. Hopefully we won't need to go down that path. And keep it more to generalities (e.g., JST concern over inconsistent communication. Our response = we have tried at every opportunity to engage and communicate what we know and when we know it).

Thanks and please take care,  
Christine

Charlie,

The RDs office have asked for general and thematic responses to the assertions made by the JST staff during a powerpoint presentation on November 19. I have translated from their slides into a word document. Could you please work with Jennifer to develop "the FWS side of the story" for these. Keep it general it is for internal use only at this point.

Christine and I could add some context to what we heard if needed.

Kevin
