---

Robyn and Hugh,

Provided Cynthia and Shaun an update today regarding Dungeness. It looks like the similar situation in another region involves the courts at Cape Romain NWR and horseshoe crab and the state's role in managing shellfish aquaculture there.

Bottom line from my conversation with Cynthia is that she wanted more information to better understand similarities/differences. Following up to answer some of her questions about examples of what leases the state has issued in the past for this area and history/details of the easement itself.

Let me know if you have any questions.

Thanks and please take care,  
Christine
