Subject: Revised ASSP/Owl/Mouse Report
Date: Thursday, July 18, 2013 12:09:06 PM
Attachments: [ASSP BUOW Model 7 18 13 final.docx](#)
Importance: High

Hi all,

Please find attached the (hopefully) final version of this report. I made all changes suggested from Gerry's comments last week. The only suggested change I did not make was including a pop estimate for ASSP. Nadav is working on that and will have it for next week (with a paragraph on methods and caveats). As Gerry and I discussed we think that the report is fine dealing with trends, but that the pop estimate is valuable for both the EIS and the listing decision. We can incorporate the ASSP population estimate into the main body of the EIS in the section describing ASSP.

Russ
