**Importance:** High

---

I am in the field until 3pm. Could talk then if it is needed. Mark and I chatted yesterday afternoon. We both felt that they could use some help flushing out there objectives. Might be a spot to focus when you are reviewing.

Sorry I missed the message yesterday. I am working on it now. Can we talk at 1?

Hi Giselle,

Have you had a chance to review the Farallon proposal? If so, would you be available to chat with Dustin and I before the end of the day or tomorrow sometime?

Hi Dustin & Giselle,

Unfortunately, I wasn't able to spend as much time as I would have liked reviewing the Farallons proposal. Attached are my comments added to Dustin's (which were great by the way). I do suggest that the objectives be revised to be more outcome oriented (vs actions like they are now). Perhaps we should have a quick call before we send to Gerry to make sure we are all on the same page. Let me know if you have any availability this afternoon (after 2:15 pm).

Attached is my comments/edits for the Farallon Large Invasive Proposal.

Let me know if you would like to discuss this as a group later this week. I think it could be a good idea, so that we don't provide them with conflicting suggestions.
