Hi Anne,

I have been giving Stacy updates, including about the issue with the press release. Very frustrating that HQ EA is pulling this 2 days from release of the FEIS. I think Stacy was going to bring it up Paul. Seems like HQ needs to work on internal coordination!

I'm confident you all will do a great job rolling this out Friday.! The mock interview is a great idea to prep for the media calls I'm sure you will get. I was super impressed at how well you and Gerry (and Paul) responded to the questions at the DOI briefing too. I think the Farallon EIS is the most rigorous, defensible EIS I've seen in my career and you all are more than prepared to roll it Friday. It's a great example of the benefits of having a strong interdisciplinary team supporting these big projects.

I will pass on the kudos to Patricia - I feel incredibly lucky to have her on staff supporting R8 refuges.

Thanks,

Mark

Hi Mark - Thanks again for participating with us on this call this morning! We (Doug, Gerry and I) had a mock media interview this afternoon and we're finishing up FAQs for the website, etc, and we'll be all ready to roll on Friday! Still waiting to hear back from Erin as to whether we can include our media contacts in stakeholder notification.

And I can't say it enough but Patricia has been an outstanding team member jumping in on various tasks on this as well as for the ELER project, and just about everything she engages in! :)

I just wanted to touch base to see if you are already keeping Stacy apprised of our progress or should I send her an update?

Thanks,  
Anne

Hi Anne,

I hope this time works for you. Apparently HQ Ext Affairs is asking/telling us not to send out the Farallon press release. I'm not sure why, but Pam and Erin can give us the details tomorrow morning.

Mark
