Hi Gerry,

Our EFH contact for the Farallons is: Mandy Morrison, Amanda.Morrison@noaa.gov, 707-575-6083

I also asked our Sustainable Fisheries Division and they said that NMFS does not manage the Dungeness crab fishery. A point of contact for CDFW would be Marci Yaremko (Marci.Yaremko@wildlife.ca.gov). She would be able to answer your questions or point you to the appropriate person.

I hope this helps!

Susan
