Hi Russ,

Thanks for the update. I'll coordinate with Gerry to obtain the new report. Thanks again for all the work that your doing.

Hi Colin

Hope your summer is going well. FYI we have nearly completed a new version of the ASSP/owl/mouse modeling report which includes 2012 results and models a much more robust suite of outcomes for future storm petrel trends. Along the lines of what we discussed in our phone meeting a while back. This will be part of the mouse eradication EIS public draft and I really think it needs to be part of the ASSP status evaluation. I'm sending it to Gerry on Friday for review but let me know any hard deadlines you may have for reviewing additional documents.

Russ
