Hi Melissa

Do you want to handle this one? Or IC/USFWS?

Russ

Subject: Interview regarding rodent control on Farallon Islands

Dear Mr. Bradley,

I received your contact information from Allison Dedrick, an acquaintance of your wife. I am a graduate student at UC Davis working for the [California Environmental Legacy Project](#) as a science writer.

I am currently working on a piece that focuses on perceptions of invasive species and efforts to control them in the US. I have been searching for more up-to-date information on the proposed rodent control project in the Farallon Islands, but most of the news articles were written last year. Before writing the article, I would like to get a sense of more recent developments associated with the issue.

If you would be available for a brief phone interview, please let me know. I can also email you a list of questions, if that is more convenient for you.

All the best,
Shahla Farzan
