Hello:

Attached are the notes taken from the Gull Hazing Trial Planning Meeting we had on July 11, with action items for each of you **highlighted**.

If you have any adjustments you would like to suggest to the assigned tasks, please let Gerry or I know ASAP, and we can revise it before Gerry sends this on to Cheryl Strong (I do not have her email) and those from USDA and USGS that were not able to make the meeting.

It would be great for us each to report back to each other in two weeks time (**August 8th?**) as to what progress we have made on each of our tasks, and then we can plan the next meeting, even if just by phone (perhaps in mid-August?) Fall will come quickly and we need to be ready for this. There are a few items unaddressed that still need some decisions on as well.

Thanks you for your efforts to date!
