Hey Russ,

Thanks this is certainly a huge list of birds. One question: Can you please send me a legend describing what *, *P,*PV,*PA, I, and any others that I missed mean? Thanks,

Gabrielle

As long as you don't have to type them all in.

Jim
Does such a list exist for SEFI birds with all the scientific names?
Thanks

Unfortunately, list does not provide scientific names for birds. Russ, do you guys have a Farallon species list that includes scientific names so that we don't have to have someone type them all in?
