Hi Gerry:

Just wanted to touch base on the status of a few of your action items this week:

1. The IHA went out, I take it? Please Cc myself and Gabrielle on the email and final draft that went out.
2. Section 7 went out as well? Gotta get that response clock ticking. Ditto on the Cc.
3. Have you scheduled a meeting for a Cal DPR briefing yet? Should do that soon.
4. Keep me posted on the possible timing for an April overnigher to demobilize the bait pellet study.
5. Any word from Carolyn about the possibilities for Cosco Busan funding? We could use it!

We are moving forward on trying to put together a set of proposals this week for the gull hazing study for this fall.

Hope to talk to you soon! Call me when you have a minute!

Dan
