Subject: gull risk assessment
Date: 11/07/2012 11:14 AM

Hello Everyone,

In the midst of all of the gull hazing preparation and EIS writing, I would like to arrange a meeting to discuss the specific path forward in revising in the gull risk assessment to finalize the DEIS. I spoke to Dwayne last week and went over each of the major comments with him to determine:

1. How the model/report would need to be revised in order to address the specific concern
2. What input parameters we would need to provide in order to make the necessary changes
3. The amount of time (rough estimates) it would take to address each concern, and
4. What other information (data, references, etc.) we would need to provide in order to address the specific concern

At this time, we need to come to consensus on our path forward. I know everyone has a tight schedule, so Dan and I were hoping that we could meet (in person and over the phone) from 4-5pm tomorrow November 8th after the gull hazing meeting. Please let me know if this will work for you. Thank you,

Gabrielle
