Hi Barbara, Anne and Chris,

Attached are the quotes for the Farallon NEPA contract. One is from Environmental Policy Solutions, where Gabrielle Feldman is now (Gabrielle worked on draft EIS for Island Conservation). The other is from Panorama Environmental, Inc.

Panorama has included Island Conservation as a subcontractor "...to provide feedback on technical topics and questions, and to assist with additional research on particular technical topics related to rodenticide use, should the need arise."

At first look at these, EPS appears to be more cost competitive than Panorama. But as part of the review, we could use some guidance on IC's inclusion on the Panorama quote. I've also attached the MOU the Service has with IC regarding information sharing and technical assistance regarding eradication projects.

I need to connect with the CO by tomorrow to make a selection. I have a call scheduled with John Isanhart (cc'ed here) at 3:30 today to discuss the quotes. If any of you would like to join that, you are welcome to. Please let me know so I can set up a conference line. Or we could talk separately if you have input. My schedule is pretty open today and tomorrow.

Thanks.
