DISCLOSURE STATEMENT

for Point Blue Conservation Science concerning the preparation of the EIS
for the *South Farallon Islands Invasive House Mouse Eradication Project*

I, Ellie Cohen, of Point Blue Conservation Science, declare that the U.S. Fish and Wildlife Service has not promised any financial or other interest in the outcome of this project if it were to be implemented. I understand the phrase “no financial or other interest in the outcome of this project” to include any financial benefits such as a promise of future work on the project. Although Point Blue has no promise of future work or other interest in the outcome of this project, the CEQ guidance memorandum entitled Forty Most Asked Questions Concerning CEQ’s NEPA Regulations, 46 Fed. Reg. 18026 (Mar. 23, 1981), as amended, 51 Fed. Reg. 15618 (Apr. 25, 1986), states that a partner may “later bid in competition with others for future work on the project if the proposed action is approved.” (Question 17b.) Point Blue reserves the right to propose future work related to this project under these guidelines

Signed:

Ellie Cohen
