Hey Mark,

With grizzly bears emerging from dens and conflicts beginning we are anxious to finish work on relocation sites with all of the Forests. We have been working with the Lolo, Bitterroot, Helena-Lewis and Clark and Beaverhead-Deerlodge on two communication plans. One plan is internal and replaces a formal agreement (i.e., the draft between the Flathead and MFWP that you previously shared). The second is external, including an initial press release explaining the USFWS new role, a FAQs for us and the USFS, and a template for each relocation incident. I wanted to see where the Flathead was on the internal plan format. Also, would you be the person to share the external plan with for review also? Is there a public affairs person for the Flathead I should also send it to?

Thanks!

Jennifer
