Hi Sarah,
i have many Bitterroot files. Attached is the EIS as a compressed file and some other files. You can covert these to Word files. Let me know if you need anything else.

Hi Chris,

Do you have a Word file (or even Word Perfect) of both the proposed and final 10j rules you folks did for the Bitterroot griz population that you could share? Looks like we may be pursuing a similar option for the North Cascades and I'd hate to reinvent the wheel if we can use yours as a model.

Thanks so much,
Sarah
