We believe the 2 grizzlies at Carlton and Tie Chute Creek are the same two grizzlies videoed in Miller Creek. We will continue to bait and monitor the traps for a few more days in case they return. At this time we do not know their location.

The two grizzlies showed up on (b) (6) cameras the 26th.

The two grizzlies were at a homesite in the river bottoms adjacent to the (b) (6). Very messy site so (b) (6), (b) (7)(C), (b) (7)(F) and (b) (6) did set for the two bitterroot bears at this new site.

(b) (6) Dropped pin
