

Brian >

We have a bear captured . If it's the Target.that has killed five calves since friday. I would recommend removal. We are transporting it to the office to work it up. I will be in touch later.

Turns out this bear was hanging out in people's backyards in Idaho north of tetonia also.

What number?

468

Don't know if you could hear me, but I cannot hear you. I'm gonna be out of service for a couple hours, but will keep trying, and you could also reach out to Becca if you're looking for help on the ground
